A solid low-carbon concrete block for use in both internal and external construction.

-  Conforming to BS EN 771-3: 2011 and a standard strength requirement of 7.3N/mm².
-  High density load bearing block suitable for solid, cavity, separating and partition walls.
-  A1 fire protection rating and excellent thermal and sound insulation.
-  Ronez Low-Carbon concrete blocks are a cost effective greener alternative, reducing resource depletion through substituting cement with an industrial by-product.*

Low-carbon block benefits

-  Ronez Low-Carbon (440 x 100 x 215mm) concrete blocks save up to 50kg CO₂e per 100 blocks or 1.3 tonnes of CO₂e per average house build.*^a
