

Medium Density Block Product Information

A medium density solid concrete block for use in both internal and external construction.

- Available in solid format with a standard strength of 7.3N/mm²
- Ideal for constructing solid, cavity, separating and partition walls
- Good levels of strength, fire resistance and sound insulation
- Mid-weight is easier to handle and quicker to lay

Ronez is the leading supplier of concrete blocks in Jersey.

The Ronez concrete block range is manufactured in a wide range of sizes strengths and finishes offering total flexibility.

Ronez concrete blocks are extremely cost effective and use top quality aggregates from our quarry ensure the full specification requirements are met.

400 x 215 x 100mm (Available to order only)

440 x 215 x 140mm

Medium density blocks

Product Information

Ronez medium density blocks are produced with the addition of lightweight aggregates, in a size of 440 x 215 x 140mm, 100mm thickness are available to order only.

Traditionally considered for compliance with manual handling recommendations. Ronez medium density blockade suitable for all walling applications above and below DPC.

Medium density blocks product range

Size (mm)	440 x 215
Thickness (mm)	140 (100 available to order)
Density (kg/m ²)	1833
Weight (kg)	24
Strength	7.3N/mm ³
Colour	Natural
Finish	Standard
K value (W/mk)	0 - 67
R value (M ² K/W)	Standard
